

Dr S.K. Sharma is one of the pioneering forces in Ultrasonography in India. In 1981, the department started its journey with one B/W 2D mode IC300 machine of ATL. Over the last two decades, the institute installed the latest generation equipment to provide the best diagnostic services in USG. The diagnostic range of USG has increased by leaps and bounds from obstetrics to imaging of almost all body parts. The department is equipped with high resolution USG and has recently installed Volusion 3D and 4D imaging systems.

Ultrasonography in progress

Apart from routine sonographic examinations, some of the specialized investigations performed in the department are:

- Trans -Vaginal Sonography (TVS)
- Ultrasound of small parts, including Eye, Thyroid, Testes, Musculo-Skeletal system
- Ultrasound guided intervention procedures
- 3D and 4D Ultrasound
- Trans - Rectal Sonography (TRS)
- Sonomammography
- Renal/ Obstetric Doppler Studies

Our Team

Dr. S.K. Sharma, Dr. Biswanath Basak, Dr. Goutam Ghosh, Dr. V.K. Sharma, Dr. Pijush Kanti Ain, Dr. P.V. Mohan, Ms. Tanushree Bhattacharyya, Ms. Debjani Dutta Gupta, Ms. Sunita Kusari, Ms. Suman Biswas, Mr. Ashok Kr. Das, Mr. T. Babu Rao, Mr. Laljit Ram, Mr. Prem Das
